The Montreal Bank Case.

Commissioner of Internal Revenue Raum gave a decision to-day in the Bank of Montreal case. It seems an examination of the books of the bank at Chicago discloses the fact that during the past nine years full re-turns for taxation have not been made of the money belonging to the bank and employed in the business of banking at its Chicago establishment. I. H. Boutelle, attorney for the bank, states the bank in Chicago is a branch of the bank in Mentreal; that \$100,000 has been allotted to it as capital, and that

under the provisions of the third subdivision, section 3408 United States Revised States utes the amount of taxable property is fixed by such allotment, so that cother moneys of the Bank of Montreal used by its branch in Chicago can be taxed neither as capital of the same, not having been allotted as capital The President will leave at the commencement exercises at Williams College, Massachusetts. He will be erry of the Bank of Montreal. Commissioner pone about ten days, visiting other points in Raum in his decision says: "In my opinion the law is well settled that the Bank of Mon-treal, being a foreign corporation, cannot establish a branch in Illinois by virtue of authority conferred in its

The number of the conferred on the such as not been cited, and it is not believed to exist. silver coin the actual coin received and paid on that day. If clearinghouse or Treasury certificates are paid or received banks are requested to state the amount of such certificates in separate items.

Receipts of Five Per Cents.

The amount of five per cent compon bonds received for continuan e at three and a half per cent, to date, including those presented at the London agency, aggregates about \$\$89,000,000. The statement prepared in the office of Register of the Treasury Bruce shows of the banks and the exercise of stoutly denied complicity.

A foundit has regument that the business of the bank in Chicago the name of the Eank of Montreal, and suits in respect to such business are brought in the name of said bank. Under the foregoing statement of the law and the facts, I am of the opinion that the provision of law cited in regard to branch banks and the allotment of capital is not applicable to this case. The Legislature of Illimois probably possesses the constitutional power of restricting by law the exercise of stoutly denied complicity.

The Legislature of Illinois probably possesses the constitutional power of restricting by law the exercise of the powers of banks by foreign corporations in said State. This, however, has not been done. The Bank of Montreal is, therefore, lawfully engaged in the business of banking in its own name in the city of Chicago.
